

AUTHORS INTRUCTIONS

Seventh International Conference on Agriculture Statistics (ICAS VII)

1. Papers must be written in English.
2. Papers must be submitted as a **MS-WORD** or **LATEX file** via the conference website.
3. The maximum size of papers is 4000 words including spaces (no more than eight pages) including title, author(s)' name(s) and affiliation(s), abstract, paper content, and references.

Please organize the paper as follows.

- **Title:** Start with the title, which should be in **bold letters** and **centred**. It should be informative but not too long (preferably no more than two lines long).
- **Name(s) of Author(s):** Continue with the list of authors. Please add an asterisk next to the name of the presenting author (speaker), who should also be the corresponding author. For each author, please provide organizational affiliation, name of city and country of residence, and e-mail address.
- **Abstract.**
- **Keywords:** A list of keywords (maximum of four) must be included after the text of the abstract. Words from the title should not be repeated in the list of keywords.
- **Organize the paper in sections:** introduction, intermediate sections, conclusion.

Please double check for scientific accuracy as well as for clarity, proper grammar and punctuation before submitting the paper.

4. Use single-spacing, **font type** 'Times New Roman' and font size 12.

Please use the **templates** provided.

5. **Figures and tables:** corresponding titles should be above the Figure, 12 pt italics, left-justified. Please include table and figure numbers and captions, and use them to cite the tables and figures in the text. Color graphics are acceptable.

6. References:

- Citations to references within the text should follow the style used in statistical journals: e.g., Fisher (1925); McCullagh, P., & Nelder, J. A. (1983); Box et al. (2013).
- The list should be arranged alphabetically, and for the same author chronologically. Use, a, b, c etc. to separate publications of the same author in the same year.
- Use formatting in statistical journals, such as the International Statistical Review.

Examples:

- Eurostat. 2004. *How Europeans spend their time. Everyday life of women and men: data 1998-2002*. Luxembourg: Statistical office of the European communities.
- Juhn, C., K.M. Murphy and B. Pierce. 1993. Wage inequality and the rise in returns to skill. *Journal of political economy*, 101, 3: 410-442.
- Kendall, M.G. & Stuart, A. (1977). *The Advanced Theory of Statistics*, 1, 4th ed. London: Griffin.
- Monin, A.S. (1963). Stationary and periodic time series in the general circulation of the In atmosphere. *Proceedings of the Symposium on Time Series Analysis*, Ed. M. Rosenblatt, pp. 144–151. New York: Wiley.
- United Nations Economic Commission for Europe (UNECE), and Food and Agriculture Organization of the United Nations (FAO), Organisation for Economic Co-operation and Development (OECD), The World Bank. 2007. *The Wye Group Handbook. Rural Households' Livelihood and Well-Being..*

7. **Abbreviations** should be spelled out in full the first time they occur. (Example: The properties of maximum likelihood estimators (MLEs) are developed. The small-sample performance of the MLEs is studied through simulation.)
